Subject: Question for Confirmation of Calendar Invite for Tomorrow's Hunters Point Call
Importance: High

Yolanda – I will be sending out this morning a confirmation of our call tomorrow and wanted to check to see if you can confirm the participants from who EPA will be on the call and make any needed edits to my message. Here is my revised calendar invite I plan to send with any needed updates from you. - Brent

Office of Speaker Nancy Pelosi
Office of Senator Dianne Feinstein
Office of Senator Kamala Harris

Dear Colleagues:

Thank you to those who have confirmed their planned participation in tomorrow's conference call update for the Hunters Point Superfund Site to provide you with an update on EPA's ongoing oversight role. To date, I have received confirmations from Robert Edmonson and Miguel Guerrero in Speaker Nancy Pelosi's San Francisco Office; Abigail Ellis in Sen. Dianne Feinstein's office; and Daniel Chen and Adam Mehis in Sen. Kamala Harris' office. We plan to discuss our April 11th proposed path forward letter we sent to the Navy. I have attached the letter again for your reference. Our letter specifically outlines a path forward to finalize the Five-Year Review report and the Parcel G Work Plan in phases to strategically move forward with the field rework. EPA has committed to the public, including members of Congress, that the rework must proceed with full transparency. Therefore, our proposed path forward is inclusive of completing these documents in a manner that is transparent to the public and allows for public comment.

EPA's role at the site is to make sure the Navy's cleanup plan protects public health and the environment. This requires a thoughtful approach involving a thorough evaluation of information and ongoing discussion among the Navy and regulatory partners. Our proposed path forward is as flexible and expedient as possible, without compromising the protection of human health. We had a productive meeting with the Navy on April 15th and we look forward to their response to our letter.

Our call is tomorrow, Friday, May 3, 2019 at 1:00pm PT (4:00pm ET). I have set up a conference line for us to use for this discussion and am providing both the call-in number and access code to join the call.

Expected EPA Participants: Enrique Manzanilla, Director, Superfund Division
Angeles Herrera, Assistant Director, Superfund Division
John Chesnutt, Chief, Superfund Division

Lily Lee, Chief, Superfund Division
David Yogi, Chief, Superfund Division
Yolanda Sanchez, Community Involvement Coordinator, Superfund

Division
